

# Career Compass

**From The Desk Of Director Principal's Desk** – “We are thrilled to announce that we have expanded our counselling team to include a full-time career counsellor. With a wealth of experience in advising students on stream & subject selection, course & college selection, and more, our new counsellor will be an invaluable resource to our students as they navigate their academic journeys.

**From The Career Counsellor** - As a counsellor, I am privileged to be part of an important team at Jaipuria School that guides students towards their ideal professional path. With the constantly changing job market, providing career counselling has become critical to help students make informed decisions about their college and career paths. Through resources, information on job trends, and assessments, we can empower students to recognize their strengths, interests, and potential career options. Ultimately, our mission is to support students in achieving their professional goals and living fulfilled lives.

Career Counselling is the guidance and support provided to students starting from class 8 to class 12 so that they are better prepared to take decisions regarding their education and career based on their interests, aptitudes and abilities. Each child is unique with their own set of interests, capabilities, pros and cons. Career counselling is a motivating force that helps identify a student's actual potential, strengths and weaknesses and gives a path most suited to them. It is a well-defined process through which a student receives information and support so that he/she can make holistic and realistic choices about his/her future in terms of selecting the right stream and subjects, course, college and career.

## Students - Achieve Goals & Objective

- *Helping you figure out what you want out of your education, your life, and who you are*
- *Discussing your ideas, feelings, and concerns about your educational and career choices*
- *Identifying the factors that are currently influencing your career development*
- *Assessing your abilities, values, and interests*
- *Locating resources of career information*
- *Determining the next steps in a plan that you will develop to ensure you achieve your goals*

## Career counselling helps students to.....

- *Fully develop their competencies & abilities.*
- *Have access to expert resources*
- *Gain confidence & insight.*
